

TIPS FOR LAYING OUT/DESIGNING YOUR PHOTO CUBE

After Gluing,
Gluing
Tabs 1,2,3 & 4
in order
and then
Tabs 5,6 and 7
all at the same time will
make the gluing process
easier

This is the point
that you will install
a hanging device
of your choice
IF
It is going to hang
from a corner

Important:
You should print your cube
on standard paper
and assemble
to make sure you
are happy before printing
on heavy paper

This panel is likely
going to be hanging in the
BACK, So don't use your
favorite photo here

This panel is the last glued
and hardest to get right
so don't put an
important picture here
and it can hang in the back
so if you don't get it perfect
you can say
"I will do better next time"
But still hang your cube :)

This is a great place to put
Names, Dates
and Descriptions
of the photos on the cube.
